BEST PRACTICE -1

GREEN AMBIENCE

Objectives of the Practice

- To enhance the awareness about climate change, Ozone depletion and organic farming and sustainable utilization of natural resources.
- To make students comprehend the inter-relationship between components of ecosystem.
- To protect the natural habitats for conservation of wild species.
- To encourage students to make seed balls for dispersing seeds.
- To make survey of plant diversity within college campus.
- To create interest and motivate students for study and research in plant science.
- To collaborate with NGOs to contribute prominently in spreading greenery.
- To disseminate the message of Nature conservation among students and citizens.

Context

Our planet earth is full of resources, some renewable and some are not, but unfortunately, we have an ever-growing population that poses a huge threat to all these resources. It is therefore unclear what future generations will find, if ever, and what life will be like for them if we exploit all the current resources. It is important to save our environment to enhance our health, protect our ecosystem, protect natural resources, fight climate change, control Pollution, preserve and protect life on Earth, and finally to pave the way for future generations. Students are the future of the country. They grow up and work for the betterment of the nation and world. Being most dominant species on earth human used natural resources abundantly than other species existed on our planet. So, human have to take the responsibility of the maintenance of the earth.

The Practice

Our Jijamata Mahavidyalaya is located in the heart of Buldhana town on 23 acres campus which is eco-friendly having rich plant diversity of herbs, shrubs, trees and lower plants like Bryophytes, Pteridophytes. Students and staff are actively engaged in several environmental protection activities conducted by Department of Botany, Zoology, NSS, NCC units and other departments to enhance the awareness for environmental conservation among students during last five years:

- **Cleanliness Drives:** Department Of Botany, Commerce, NSS, NCC- Swachhata Abhiyan, Swachhata Pakhwada, Swachhata Pledge By NCC Cadets.
- **Ozone Conservation Day:** To spread awareness among the students about Ozone Layer 'Ozone Conservation Day' is celebrated by the department of Zoology.
- **Bird Week:** Installation of Artificial Nests for Birds.

- **World Sparrow Day** was celebrated by Department of Zoology to raise awareness of the house sparrow and other common birds their populations on 20 March. Earthen pots to provide water during summer season were installed in Botha Forest.
- **National Wildlife Week:** The National Wildlife Week aims at protecting and preserving India's flora and fauna.
- **Seed Balls:** The students collected seeds of fruits and flower plants. The seeds were processed with appropriate soil and insecticide, so that the balls should remain intact after scattering it on the targeted land. Seed balls were prepared and scattered on the hills nearby town.
- **Survey of Tree Plants:** Survey of College Campus to know plant diversity
- **Talking Tree JMV:** Android App was developed by the Department of Botany as an attempt to make trees speak using information technology. A board with the name of the tree & QR code is placed on the trees in the college.
- Seed Bank of Wild and Cultivated Plant Species is established in Department of Botany. Seeds are stored in earthen pots in traditional way.
- Students were taken to visit the District level Agricultural Exhibition.
- Method of Segregation of Degradable and Non-Degradable solid waste material is demonstrated from display board on college premises.
- **Students actively participated in**
 - Clean Buldhana Awareness Cycle Rally
 - Mega Swachhata Pakhwada (NCC unit)
 - Painganga River Cleanliness Drive.
 - Environmental Promotional and Tree Plantation Activity During NSS Camp at Malvihir
 - Gram Swachhata Abhiyan at village Pokhari
 - Cleanliness Drive at Malvihir
 - Cleanliness Drive at Adapted Village Dattapur
- **Tree Plantation and Conservation Drives: Students, NCC, NSS Unit and College Staff** Members of different Departments actively involved.

Evidence of Success:

- Survey of Trees on college campus enlisted many types of economically important plants including about 278 plants and around 42 plant species.
- NGO 'Vanyajiv Soyare' and District Forest Office appreciated the activity.
- Talking Tree App with QR code created interest and motivated students for study in plant sciences. Even students & staff from other colleges, and citizens are taking benefit of it.
- Alumni and other organizations donated tree-guards, rare wild variety mango trees, and medicinal plants.
- College students and NGOs jointly installed artificial nests at Dnyanganga Wildlife Sanctuary.

- Some social groups joined our environmental practices and contributed in it. Thus the practice attracted social involvement in institutional efforts to create green ambience on and off the campus.
- Various competitions motivated students to search, and read about environmental issues.
- Webinar on Conservation of Biodiversity and other events convinced the importance of each species on the earth.
- Students understood a new method for artificial dispersal of seeds through seed balls.
- Cleanliness drive for plastic free campus became a regular practice.
- Members of Management, eminent citizens, officers, Alumni voluntarily involved in plantation in the College Premises.

Problems Encountered and Resources Required

- Mortality rate of young plant is more than expectation due to rocky bed underneath soil layer, plant diseases.
- Excess water logged during rainy season.
- Water scarcity and high temperature during summer season.
- Good quality of plantlets
- More water resources required for large area.

Best practice**Title of the Practice: - Survey of tree Plants Diversity in our Jijamata Mahavidyalaya, Buldhana campus.****Context:-**

Our Jijamata Mahavidyalaya, Buldhana is located on Chikhali Road near Devi Mandir of Buldhana. Area of college campus is 23 acres which is eco-friendly having rich plant diversity including many herb, shrub trees and lower plants Bryophytes, Pteridophytes. We can take great advantage of those plants which are seen in the campus of our Jijamata Mahavidyalaya, Buldhana.

Goals:-

- To count total number of Tree plant in college campus.
- To know the total number of plant species.
- To identify and naming all tree plants in college campus.
- To find rare tree plants in college campus.
- To conserve tree plants.
- To study and aware about economic importance of tree plant in college campus.
- To conserve tree plant diversity in college campus.

Programme Conducted:-

1. **Grouping of Students:** Different groups of students from B.Sc. III Semester VI were made. Each group is assigned to a different area of the college campus. They went around to different parts of the college to conduct a survey of tree plants.
2. **Counting and Numbering of Tree Plants:** During survey, in proper sequence numbering using limestone is given to all tree plant.
3. **Identification:** After numbering with the help of keys, flora and local expert identification of plants was done.
4. **Naming:** List with vernacular and botanical name of all plant was made.
5. **Study:** Seven tree plants were selected by all groups for study to know their medicinal and ornamental uses.

Out Come:-

From the above study it is clear that Jijamata Mahavidyalaya is rich in plant

biodiversity. We found many types of economically important plants. Including 300 to 400 plants and around 42-45 plant species. Students are seems to be happy and actively participated. Interest towards plant taxonomy is created among student.

Problems encountered:-Initial Numbering using limestone was washed out due to heavy rain fall.

Title of the Practice: Development of Talking Tree android Application to introducing Tree Plant in College campus.

Context:- An Android app (Talking Tree JMV) was developed by the Department of Botany as an attempt to make trees speak using information technology.

Goals:-

1. To Identify Tree Plant.
2. To know the systematic Position with Botanical Name of each tree plant in college campus.
3. To take information about plant Description.
4. To make aware about economic importance of all tree plant.
5. To create interest and motivate students for study and research in plant taxonomy.

Programme Conducted:- This mobile app was inaugurated by Hemant Kalmegh, executive member of Shree Shivaji Shikshan Sanstha Amravati. Dr. Vasantrao Chinchole, Professor J. B. Bahekar, Prof. G. R. Jadhav, Dr. Anant Sirsat, Member of Development Committee was present in the college for this programme. A board with the name of the tree QR code is placed on the trees in the college. When the QR code is scanned the medicinal properties and information about the plant is available in spoken form. This app is available on Google Play Store.

Outcome:- Through this activity, an effort was made to make everyone aware of the trees in the college, to know their importance and to conserve them.

1. Students are able to identify Tree Plant in campus.
2. Student can know systematic Position with Botanical Name of each tree plant in college campus by scanning QR code within a second.
3. Botany student are easily collecting information about plant Description.
4. Interested students and all visitors aware about economic importance of particular tree plant.
5. After labeling all trees with QR, it is seems to creating interest and motivating Botany students for study in plant taxonomy.

Problems encountered:- Some students are belonging to economically weak families therefore they don't have android mobile so they could not take benefit from it.

Title of the Practice: Establishment of Departmental Seed Bank of Wild and Cultivated Plant Species.

Objectives of the Practice:

1. Preservation of Crop diversity.
2. Provide seed material for research.
3. Preservation from man-made disasters.
4. To motivate students for collection of seeds of rare plant and some common edible plant of wild variety.
5. Conservation of wild variety of some edible plant and Medicinal plant species.
6. To know the traditional Method of seed preservation.
7. To collect seeds of food crop plants from local farmer.
8. To conserve the plant species by storing seeds traditionally in earthen pot.

Context:- Many plants that were used centuries ago by humans are used less frequently now; seed banks offer a way to reserve that historical and cultural value. Seed bank are considered seed libraries, containing valuable information about evolved strategies to combat plant stress and can be used to create genetically modified versions of existing seeds. Seed bank is a place where seeds are stored to preserve genetic diversity of plants for future. The seeds are typically kept under cold and dry conditions.

It is seems that most of the old farmer have good habit of collection and storage of seeds of edible plant like fruits, flower, leaf vegetable, pulses, medicinal plant, fiber yielding plants, oil yielding plant etc. with the help of traditional method in hand made earthen plants and containers.

Programme Conducted:-

1. We motivated to the students by the real seed conservation story of *Padmashri* Rahibai Popere (Seed Mother) from village Kombhalne, Tah. Akole Dist. Ahemdnagar (M.S.).
2. Project work were given to B.Sc. III year students of Botany, in which they have collected at least one type of seed.
3. For collection of cultivated food plant seed every student meet to villager, asked their grandmother and grandfather and other people. At the same time they get knowledge and guidance about storage of seed by traditional method.
4. For collection of medicinal and wild variety of plant seed student went to nearby area of their village, forest and college campus.
5. After collection seed were brought at laboratory of department of Botany.
6. Then deposited and put in earthen pot.
